

1. PROJECT / R&D TRACKING MODULE

A. Basic Details

- Project Title
 - Domain (AI / Robotics / IoT / Web Development / etc.)
 - System Type:
 - Software
 - Hardware
 - Both
 - Project Type:
 - Personal Project
 - Faculty Project
 - Competition
 - Research & Development (R&D)
 - Patent-Oriented
 - Project Description (Short Summary + Detailed Explanation)
-

B. Team Details

- Project Lead (Must be a registered member)
- Team Members (Multi-select from registered users only)
- Faculty Mentor (if applicable)

Registration Constraints:

- All members must be registered on the website with:
 - Full Name
 - Personal Email ID
 - College Email ID
 - GitHub Profile Link
 - Project registration approval will be done exclusively by the Club President
-

C. Timeline

- Start Date
- Expected End Date
- Expected Duration (Auto-calculated or manual entry)
- Current Phase:
 - Ideation
 - Proposal Submitted
 - Approved
 - Development

- Testing
 - Deployment
 - Completed
-

D. Technical Details

Tech Stack Template (to be filled in structured format):

- Programming Languages:
- Frameworks/Libraries:
- Hardware Components (if any):
- Tools & Platforms:
- APIs/Services Used:
- Database (if applicable):
- Version Control System:

Additional Inputs:

- GitHub Repository Link (Mandatory after development starts)
 - Initial Proposal Document (Mandatory at project creation stage)
 - Must be selected from 3 predefined formats provided in CRM
 - Final Project Report (Mandatory after completion)
-

E. Progress Tracking

- Weekly Progress Logs:
 - Each entry must contain:
 - Date
 - Two-line Progress Summary
 - Issues/Challenges Faced
-

F. Outcome

- Project Status:
 - Completed
 - Ongoing
 - Dropped
 - Demo Link (if available)
 - Final Deliverables Upload
-

G. Recognition / Expected Output

- Expected Recognition Type:
 - Research Paper
 - Conference Submission
 - Patent Filing

- Competition Outcome
 - Product Deployment
-

2. PATENT MODULE(optional)

- Patent Title
 - Associated Project (Linked from Project Module)
 - Inventors (Auto-filled from team members, editable if needed)
 - Patent Type:
 - Provisional
 - Complete
 - Status:
 - Draft
 - Under Review
 - Filed
 - Published
 - Granted
 - Filing Number
 - Filing Date
 - Abstract
 - Description Document Upload
 - Supporting Documents
 - Faculty/Coordinator Approval Status
 - Remarks / Comments Section
-

3. PROPOSAL MODULE (DETAILED R&D FORMAT)

Proposal Submission Structure:

- Title of Proposal
- Domain
- Problem Statement
- Objectives
- Literature Review / Existing Solutions
- Proposed Methodology
- System Architecture (optional diagram upload)
- Expected Outcomes
- Innovation / Uniqueness
- Feasibility Analysis
- Resource Requirements:
 - Software
 - Hardware
 - Budget (if applicable)
- Timeline Plan (Phase-wise)

- Team Details
- Risk Assessment
- References

Instructions for R&D Proposal Submission:

- Proposal must strictly follow the provided CRM format
 - All sections are mandatory unless specified
 - Content must be original and plagiarism-free
 - Clearly define innovation and research contribution
 - Include practical feasibility and implementation scope
 - Submission will undergo review and approval by:
 - Club President
 - Faculty Coordinator
-

4. EVENTS / WORKSHOPS MODULE

- Event creation and registration will be performed only by the Club President

Fields:

- Event Name
 - Type (Workshop / Seminar / Hackathon / Guest Lecture)
 - Date(s)
 - Venue / Mode (Online/Offline)
 - Organising Team
 - Budget Details
 - Speakers / Guests
 - Number of Participants
 - Event Report Upload
 - Media Upload (Photos/Videos)
-

5. MEMBER CONTRIBUTION TRACKING

- Member Name
 - Role (Core / Lead / Member)
 - Projects Involved
 - Events Contributed
 - Contribution Logs
 - Performance Indicator / Score (optional internal metric)
-

6. DOCUMENT REPOSITORY

- Proposal Formats
- Project Reports
- Patent Documents
- Event Reports
- Official Letters and Approvals

- Media Assets
-

7. ACCESS CONTROL SYSTEM (STRICT GOVERNANCE)

Club President

- Full and exclusive administrative control
 - Can:
 - Approve projects
 - Reject projects
 - Delete projects
 - Approve/reject proposals and patents
 - Manage users and system data
 - Create and manage events
-

Core Team

- Full operational access except restricted administrative actions
 - Can:
 - Create and edit projects
 - Manage proposals and logs
 - Cannot:
 - Approve or reject projects
 - Delete projects
-

Project Leads

- Create and manage their own projects
 - Add registered members to the team
 - Update:
 - Progress logs
 - Technical details
 - Cannot:
 - Delete projects
 - Approve/reject projects
-

Members

- View accessible projects
- Submit proposals
- Contribute to assigned projects

Restrictions:

- Cannot edit project details
 - Cannot delete projects
 - Cannot approve/reject projects
 - Can only update their own assigned progress logs
-

Faculty Coordinator

- View all projects
 - Add remarks/comments
 - Approve research and patent submissions
-

Public View (Website)

- Visible:
 - Completed Projects
 - Achievements
 - Events
 - Restricted:
 - Internal logs
 - Proposals
 - Sensitive documents
-

Club President Access Restriction

- Full administrative privileges accessible only via official club email authentication
-

8. SYSTEM FEATURES (ADVANCED)

- Notifications System:
 - Deadline reminders
 - Approval alerts
 - Activity updates
- Dashboard Overview:
 - Total Projects
 - Active R&D Projects
 - Patents Filed
 - Events Conducted
- Search & Filtering:
 - Domain-based filtering
 - Year-based filtering
 - Status-based filtering

- Auto Report Generator:
 - Generates structured reports for university submission
 - Includes project summaries, outcomes, and statistics
- Leaderboard:
 - Tracks member contributions
 - Ranks based on participation and performance
- GitHub/API Integration:
 - Fetch repository activity
 - Track commits and updates
- Calendar View:
 - Displays project timelines
 - Event schedules
 - Milestone deadlines
